

PUBLIC BUILDINGS

AMAALA Staff Village

TABUK, SAUDI ARABIA

AMAALA Staff Village, a large-scale facility complex spanning 1.44 million m², safeguards nearly 20,000 personnel supporting one of Saudi Arabia's flagship tourism developments.

AMAALA Staff Village is a large-scale accommodation development covering approximately 1.44 million m², designed to house nearly 20,000 personnel supporting the AMAALA and Triple Bay masterplan projects. The development includes facility and technical support buildings serving one of Saudi Arabia's most prestigious tourism projects. The safety of personnel and infrastructure is ensured by the smartVES Voice Evacuation System, providing voice message distribution and centralized management of the audio infrastructure.
