

TRANSPORT

Bogestra Bochum – Herne – Gelsenkirchen Lines

GERMANY

Ambient System worked together with the transport operator and system integrator.

The project envisaged the development of a networkable paging system using Ambient System NETIO amplifiers. Overall, the network currently consists of more than 60 NETIO units and 30 emergency microphone call-stations.

SOLUTIONS PROVIDED

- » 30 ABT-DFMS remote microphone call-stations
- » Over 60 NETIO amplifiers in the system
- » Automated messaging using fully redundant hardware
- » TCP/IP transmission from OCC to the stations over operators network
- » Monitoring of all PA health and status from the OCC

We make everyday life safer
