

HOTELS

Hyatt Place AlUla

ALULA, SAUDI ARABIA

Hyatt Place AlUla, a 215-room hotel in the heart of AlUla, is equipped with a reliable smartVES PAVA evacuation infrastructure covering the property's accommodation, dining and leisure areas.

Hyatt Place AlUla is a 215-room internationally branded hotel located in the heart of AlUla, Saudi Arabia. The property features multiple dining venues and leisure facilities and was developed under a management agreement with the Royal Commission for AlUla (RCU), supporting the region's tourism and hospitality development. The deployed smartVES PAVA was designed to provide comprehensive evacuation coverage across the hotel's accommodation, dining and leisure areas, supporting efficient audio distribution throughout the facility.
